

## Portland General Electric Announces Second Quarter 2018 Results

July 27, 2018

- Settlement of Carty Generating Station litigation allows for full offset of incremental construction costs
- Increasing guidance from \$2.10-\$2.25 to \$2.25-\$2.40 per diluted share
- SP Global upgraded PGE's issuer credit rating from BBB to BBB+

PORTLAND, Ore.--(BUSINESS WIRE)--Jul. 27, 2018-- Portland General Electric Company (NYSE: POR) today reported net income of \$46 million, or 51 cents per diluted share, for the second quarter of 2018. This compares with net income of \$32 million, or 36 cents per diluted share, for the second quarter of 2017.

"I'm pleased to put the Carty litigation behind us and recognize the increase in our credit ratings," said Maria Pope, president and CEO. "In addition, we're making progress in bringing customers new renewable resources and programs, including our renewable RFP and green tariff."

### Q2 2018 earnings compared with Q2 2017 earnings

Lower natural gas prices and reduced plant maintenance expenses drove the increase in second quarter earnings per diluted share for 2018 in comparison with second quarter of 2017. Additionally, a decrease in distribution-related expenses due to the absence of major storms in 2018 and an increase in production tax credits was partially offset by gross margin due to temperatures that were warmer than prior year as well as increased administrative expenses.

### Company update

#### **Carty Generating Station**

On July 16, 2018, PGE entered into a settlement with the other parties to resolve all claims relating to Carty construction between PGE and each of the Abeinsa EPC LLC; Abener Construction Services, LLC; Teyma Construction USA, LLC; and Abeinsa Abener Teyma General Partnership (collectively, the Contractor); Abengoa S.A., Liberty Mutual Insurance Company and Zurich American Insurance Company (together, the Sureties). Under the terms of the settlement, (i) the Sureties have paid \$130 million to PGE, and (ii) the Contractor, Abengoa S.A., and the Sureties have released all claims against PGE arising out of the Carty construction, and in return, PGE has released all such claims against the Contractor, Abengoa S.A., and the Sureties.

#### **2019 General Rate Case**

On February 15, 2018 the 2019 General Rate Case was filed, and parties are currently in the testimony phase. Several settlement discussions have been held with parties and have resulted in agreement on all power-cost related matters as well as some non-power-cost items, such as cost of capital. Stipulations regarding these agreements are in progress and will become available in the coming weeks.

PGE filed reply testimony on the remaining items on July 13, 2018, and held additional settlement discussions on July 23, 2018. A final order is expected from the Oregon Public Utility Commission (OPUC) by the end of the year, with a price change effective January 1, 2019.

#### **Renewable Request for Proposal (RFP)**

PGE issued an RFP on May 22, 2018 for the 100 average megawatts of renewable resources needed as identified in its 2016 Integrated Resource Plan. All submissions were due on June 15, 2018. As planned, PGE submitted a self-build benchmark proposal for a greenfield wind project. The bids are currently under review with oversight from an independent third-party evaluator appointed by the OPUC to ensure that all bids are evaluated consistently and impartially. A shortlist will be established and submitted to the OPUC in October with final contract execution expected by December 31, 2018.

(Decrease)/increase from the 15-year average	(28)%	5%		36%	52%	

### **2018 earnings guidance**

PGE is revising its 2018 guidance from \$2.10-\$2.25 to \$2.25-\$2.40 per diluted share due to better-than-expected weather when initial guidance was launched and settlement of Carty litigation. The guidance is based on the following assumptions:

- \$0.12 per diluted share attributed to Carty settlement
- Flat retail deliveries, weather-adjusted
- Normal hydro conditions for the remainder of the year, based on the current hydro forecast
- Wind generation for the remainder of the year, based on five years of historical levels or forecast studies when historical data is not available
- Normal thermal plant operations for the remainder of the year
- Depreciation and amortization expense between \$365 and \$385 million
- Operating and maintenance costs between \$565 and \$585 million

### **Second Quarter 2018 earnings call and webcast — July 27, 2018**

PGE will host a conference call with financial analysts and investors on Friday, July 27, 2018, at 11 a.m. ET. The conference call will be webcast live on the PGE website at [investors.portlandgeneral.com](http://investors.portlandgeneral.com). A replay of the call will be available beginning at 2 p.m. ET on Friday, July 27, 2018, through Friday, August 3, 2018.

Maria Pope, president and CEO; Jim Lobdell, senior vice president of Finance, CFO, and treasurer; and Chris Liddle, director, Investor Relations and Treasury, will participate in the call. Management will respond to questions following formal comments.

The attached unaudited condensed consolidated statements of income and comprehensive income, condensed consolidated balance sheets, and condensed consolidated statements of cash flows, as well as the supplemental operating statistics, are an integral part of this earnings release.

### About Portland General Electric Company

Portland General Electric (NYSE: POR) is a fully integrated energy company based in Portland, Oregon, serving approximately 883,000 customers in 51 cities. For more than 125 years, PGE has been delivering safe, affordable and reliable energy to Oregonians. Together with its customers, PGE has the No. 1 voluntary renewable energy program in the U.S. With approximately 2,900 employees across the state, PGE is committed to helping its customers and the communities it serves build a clean energy future. For more information, visit [PortlandGeneral.com/CleanVision](http://PortlandGeneral.com/CleanVision).

### Safe Harbor Statement

Statements in this news release that relate to future plans, objectives, expectations, performance, events and the like may constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements regarding earnings guidance; statements regarding future load, hydro conditions, wind conditions and operating and maintenance costs; statements concerning implementation of the company’s integrated resource plan; statements concerning future compliance with regulations limiting emissions from generation facilities and the costs to achieve such compliance; as well as other statements containing words such as “anticipates,” “believes,” “intends,” “estimates,” “promises,” “expects,” “should,” “conditioned upon,” and similar expressions. Investors are cautioned that any such forward-looking statements are subject to risks and uncertainties, including reductions in demand for electricity and the sale of excess energy during periods of low wholesale market prices; operational risks relating to the company’s generation facilities, including hydro conditions, wind conditions, disruption of fuel supply, and unscheduled plant outages, which may result in unanticipated operating, maintenance and repair costs, as well as replacement power costs; the costs of compliance with environmental laws and regulations, including those that govern emissions from thermal power plants; changes in weather, hydroelectric and energy markets conditions, which could affect the availability and cost of purchased power and fuel; changes in capital market conditions, which could affect the availability and cost of capital and result in delay or cancellation of capital projects; failure to complete capital projects on schedule or within budget, or the abandonment of capital projects which could result in the company’s inability to recover project costs; the outcome of various legal and regulatory proceedings; and general economic and financial market conditions. As a result, actual results may differ materially from those projected in the forward-looking statements. All forward-looking statements included in this news release are based on information available to the Company on the date hereof and such statements speak only as of the date hereof. The Company assumes no obligation to update any such forward-looking statement. Prospective investors should also review the risks and uncertainties listed in the company’s most recent annual report on form 10-K and the Company’s reports on forms 8-K and 10-Q filed with the United States Securities and Exchange Commission, including management’s discussion and analysis of financial condition and results of operations and the risks described therein from time to time.
