

Portland General Electric announces first quarter 2019 results

April 26, 2019

- Reaffirming 2019 guidance of \$2.35 - \$2.50 per diluted share
- Announced annual dividend increase of 9 cents per share or 6.3% growth

PORTLAND, Ore., April 26, 2019 /PRNewswire/ -- Portland General Electric Company (NYSE: POR) today reported net income of \$73 million, or 82 cents per diluted share, for the first quarter of 2019. This compares with net income of \$64 million, or 72 cents per diluted share, for the first quarter of 2018.

"Against the backdrop of highly volatile regional energy markets, our power supply portfolio performed well, allowing us to effectively manage costs and deliver solid results," said Maria Pope, PGE president and CEO. "Additionally, we are advancing our transportation electrification plan to expand infrastructure and increase access vital to cleaner energy for Oregon."

Q1 2019 earnings compared to Q1 2018 earnings

The increase in first quarter earnings was primarily driven by colder temperatures resulting in higher energy deliveries, an increase in retail revenue and strong power supply portfolio performance. This was partially offset by higher market prices for power in the West due to cold temperatures that increased regional demand, lower than average wind and hydropower production, and pipeline capacity reductions in natural gas supply. Remaining earnings drivers include the absence of costs associated with Carty litigation in 2019 as compared to 2018, a reduction in production tax credits as wind underperformed and a decrease in miscellaneous other items.

2019 earnings guidance

PGE is affirming its 2019 guidance of \$2.35 to \$2.50 per diluted share. This guidance is based on the following assumptions:

- Increase in retail deliveries of 0.5%
- Average hydro conditions for the year
- Wind generation based on five years of historical levels or forecast studies when historical data is not available
- Normal thermal plant operations
- Depreciation and amortization expense between \$400 million and \$420 million
- Operating and maintenance costs between \$585 million and \$605 million
