

## Portland General Electric Announces First Quarter 2021 Results

April 30, 2021

- Strong first quarter financial results of **\$1.07 per diluted share**
- Restored power to nearly half of customer base during historic February ice storm
- Capital plan remains on track, supporting decarbonization and electrification goals
- Reaffirming 2021 earnings guidance of **\$2.55 to \$2.70 per diluted share**

PORTLAND, Ore., April 30, 2021 /PRNewswire/ -- Portland General Electric Company (NYSE: POR) today reported net income of \$96 million, or \$1.07 per diluted share, for the first quarter of 2021. This compares with net income of \$81 million, or 91 cents per diluted share, for the first quarter of 2020.

"While the first quarter presented challenges, the team remains focused on supporting customers," said Maria Pope, PGE president and CEO. "I am proud of the way we came together to restore power quickly, and safely, during a once in 40-year ice event. These events demonstrate the importance of continued investment in a safe, reliable and resilient grid."

### **First Quarter 2021 Compared to First Quarter 2020**

Total revenues increased as a result of higher retail energy deliveries, driven by strong residential demand and growth in the high-tech and digital service sectors, as well as revenues from the recently completed Wheatridge Renewable Energy Facility. Purchased power and fuel expense increased due to lower hydro and wind production and higher than expected market prices. Operating expenses increased, primarily driven by higher storm restoration expense, legal fees and increased employee benefit expenses. Depreciation and amortization expense decreased, partially offset by utility capital additions. Tax expense decreased primarily due to a one-time recognition of a local tax flow-through adjustment.

### **Company Updates**

#### **Strong Energy Delivery Growth**

Retail energy deliveries for the three months ended March 31, 2021 increased 1.2%, weather-adjusted, compared to the same period of 2020. This was driven by an increase of 8% in industrial deliveries, powered by the expansion in the high-tech and digital sectors, and 3% growth in residential deliveries as the average number of residential customers increased by 1.3%. These increases were partially offset by a decrease in commercial deliveries of 5%.

#### **February 2021 Ice Storms and Damage**

Beginning on February 11, 2021, an historic set of storms involving heavy snow, winds and ice impacted the United States, including PGE's service territory. Oregon Governor Kate Brown declared a state of emergency in response to these severe storms. Through March 31, 2021, PGE has incurred an estimated \$87 million in incremental costs due to the storms, of which \$33 million were capital and recorded to electric utility plant, net and \$54 million were operating expenses associated with transmission and distribution. Beginning in 2019, the OPUC authorized the Company to collect \$4 million annually from retail customers to cover incremental expenses related to major storm damages, and to defer any amount not utilized in the current year. In response to the February storms, PGE exhausted its storm collection balance for 2021 of \$9 million, which was used to offset operating expenses. After accounting for storm deferral tracking mechanisms already in place, the cumulative incurred costs from the February storm damage are estimated to be \$45 million as of March 31, 2021.

On February 15, 2021, PGE filed an application for authorization to defer emergency restoration costs for the February storms (Docket UM 2156). PGE expects to incur and defer additional costs subsequent to the storm.

#### **The Climate Pledge**

On April 21, 2021, PGE continued its commitment to advancing a sustainable future by joining The Climate Pledge, aiming to be net-zero carbon by 2040 — a decade ahead of the Paris Agreement's goal of 2050. As a signatory to The Climate Pledge, led by Amazon and Global Optimism, PGE agrees to measure and report greenhouse gas emissions on a regular basis; implement decarbonization strategies in line with the Paris Agreement through real business changes and innovations, including efficiency improvements, renewable energy, materials reductions, and other carbon emission elimination strategies; and neutralize any remaining emissions with additional, quantifiable, real, permanent, and socially-beneficial offsets.

#### **Quarterly Dividend**

As previously announced, on April 28, 2021, the board of directors of Portland General Electric Company approved an increase in the annual dividend of 5.5%, or \$0.09 per share, declaring a quarterly common stock dividend of \$0.43 per share.

## **2021 Earnings Guidance**

PGE is reaffirming its full-year 2021 earnings guidance of \$2.55 to \$2.70 per diluted share based on the following assumptions:

- An increase in annual energy deliveries between 1% and 1.5%, weather adjusted, which reflects year over year:
  - Commercial growth, as economic recovery takes hold; and
  - Strong growth in industrial reflecting customer expansions.
  - These increases are partially offset by a decrease in residential as customers spend less time at home.
- Normal temperatures in its utility service territory, for the remainder of the year;
- Average hydro conditions for the remainder of year;
- Wind generation based on five years of historical levels or forecast studies when historical data is not available;
- Normal thermal plant operations, for the remainder of the year;
- Revised capital expenditures of \$700 million;
  - This represents a \$45 million increase from prior guidance of \$655 million, primarily due to capital expenditures related to the February storm;
- Average construction work in progress balance of \$340 million;
- Revised operating and maintenance expense between \$595 million and \$615 million;
  - This represents a \$20 million increase to original guidance of \$575 million to \$595 million, of which \$12 million is associated with February storm response expense that is offset in revenue;
- Depreciation and amortization expense between \$410 million and \$430 million;
- Revised effective tax rate of 10% to 15%;
- Cash from operations of \$600 million to \$650 million;
- No new common equity to be issued for investment or operations; and
- Continuation of existing regulatory mechanisms during 2021, including decoupling, the PCAM, the COVID-19 deferral, the wildfire deferral, and the new storm deferral.

## **First Quarter 2021 Earnings Call and Webcast —April 30, 2021**

PGE will host a conference call with financial analysts and investors on Friday, April 30, 2021, at 11 a.m. ET. The conference call will be webcast live on the PGE website at [investors.portlandgeneral.com](http://investors.portlandgeneral.com). A replay of the call will be available beginning at 2 p.m. ET on Friday, April 30, 2021, through 2 p.m. ET on Friday, May 7, 2021.

Maria Pope, president and CEO; Jim Ajello, senior vice president of Finance, CFO, and treasurer; and Jardon Jaramillo, senior director, Investor Relations, Treasury, and Risk Management, will participate in the call. Management will respond to questions following formal comments.

The attached unaudited condensed consolidated statements of income and comprehensive income, condensed consolidated balance sheets and condensed consolidated statements of cash flows, as well as the supplemental operating statistics, are an integral part of this earnings release.

## **About Portland General Electric Company**

Portland General Electric (NYSE: POR) is a fully integrated energy company based in Portland, Oregon, with operations across the state. The company serves approximately 900,000 customers with a service area population of 2 million Oregonians in 51 cities. PGE owns 16 generation plants across Oregon and other Northwestern states and maintains and operates 14 public parks and recreation areas. For over 130 years, PGE has delivered safe, affordable and reliable energy to Oregonians. Together with its customers, PGE has the No. 1 voluntary renewable energy program in the U.S. PGE and its 3,000 employees are working with customers to build a clean energy future. In 2020, PGE, employees, retirees and the PGE Foundation donated \$5.6 million and volunteered 18,200 hours with more than 400 nonprofits across Oregon. ## **Safe Harbor Statement**

Statements in this press release that relate to future plans, objectives, expectations, performance, events and the like may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements regarding the Company's full-year earnings guidance (including expectations regarding annual retail deliveries, average hydro conditions, wind generation, normal thermal plant operations, operating and maintenance expense and depreciation and amortization expense) as well as other statements containing words such as "anticipates," "believes," "intends," "estimates," "promises," "expects," "should," "conditioned upon," and similar expressions. Investors are cautioned that any such forward-looking statements are subject to risks and uncertainties, including, without limitation: demand for electricity; the sale of excess energy during periods of low demand or low wholesale market prices; operational risks relating to the Company's generation facilities, including hydro conditions, wind conditions, disruption of fuel supply, and unscheduled plant outages, which may result in unanticipated operating, maintenance and repair costs, as well as replacement power costs; failure to complete capital projects on schedule or within budget, or the abandonment of capital projects, which could result in the Company's inability to recover project costs; the costs of compliance with environmental laws and regulations, including those that govern emissions from thermal power plants; changes in weather, hydroelectric and energy market conditions, which could affect the availability and cost of purchased power and fuel; the development of alternative technologies; changes in capital and credit market conditions, which could affect the access to and availability of cost of capital and result in delay or cancellation of capital projects or execution of the Company's strategic plan as currently envisioned; the outcome of various legal and regulatory actions; general economic and financial market conditions; severe weather conditions, wildfires, and other natural phenomena and natural disasters that could result in operational disruptions, unanticipated restoration costs, or liability for third party property damage; cyber security breaches of the Company's customer information system or operating systems, data security breaches, or acts of terrorism, which could disrupt operations, require significant expenditures, or result in claims against the Company; PGE business activities are concentrated in one region and future performance may be affected by events and factors unique to Oregon; the impact of the recommendations on the Company and its operations based on the review conducted by the Special Committee of the Board of Directors relating to

energy trading losses, the time and expense incurred in implementing the recommendations of the Special Committee, and any reputational damage to the Company relating to the matters underlying the Special Committee's review; and widespread health emergencies or outbreaks of infectious diseases such as the novel coronavirus disease (COVID-19), which may affect our financial position, results of operations and cash flows. As a result, actual results may differ materially from those projected in the forward-looking statements.
