

Portland General Electric Announces Third Quarter 2022 Results

October 25, 2022

- Increasing long-term EPS growth guidance to 5% to 7% from a 2022 adjusted earnings base year
- Collaborating with NextEra Energy Resources to construct a 311 MW wind energy facility in Eastern Montana; with 208 megawatts Company-owned
- Resolution of 2020 wildfire, 2021 ice storm, and 2021 power cost deferrals
- Reaffirming 2022 GAAP basis earnings guidance of \$2.60 to \$2.75 and non-GAAP basis adjusted earnings guidance of \$2.74 to \$2.89

PORTLAND, Ore., Oct. 25, 2022 /PRNewswire/ -- Portland General Electric Company (NYSE: POR) today reported net income based on generally accepted accounting principles (GAAP) of \$58 million, or \$0.65 per diluted share, for the third quarter of 2022. This compares with GAAP net income of \$50 million, or \$0.56 per diluted share, for the third quarter of 2021.

"Solid financial results this quarter are the result of exceptional operating performance through very challenging climate and power market conditions," said Maria Pope, PGE president and CEO. "Our entire team is focused on serving customers with reliable, affordable power, managing our costs, and driving operational efficiencies, as we make investments in clean energy and grid reliability. We have long been on the forefront of Oregon's clean energy transition, and today we are pleased to announce a new, utility-owned wind generation facility that will help us achieve our, and our customers', decarbonization goals."

Third Quarter 2022 Compared to Third Quarter 2021

Total revenues were driven by higher retail energy deliveries, due to continued growth in industrial demand, as well as warmer weather, offset by a reduction in the average price of deliveries due to a varying customer mix. Purchased power and fuel expense increased primarily due to elevated power market prices to serve load during periods of high demand in a historically hot summer. Operating and administrative expenses decreased, driven by lower professional services costs. Other income increased due to a settlement gain from the buyout of a portion of PGE's post-retirement medical plan.

Company Updates

Increasing Long-Term EPS Growth Guidance to 5% to 7% from a 2022 adjusted base year

The Company is increasing long-term EPS growth guidance from 4% to 6% from a 2019 base year to 5% to 7% EPS from a 2022 adjusted base year. Positive Request for Proposals (RFP) results and strong renewable development, grid investment opportunities, and load growth create a path to increase investments on behalf of customers.

The Company is also increasing long-term load growth guidance from 1.5% to 2%. This increase is enabled by continued strong growth in high-tech industrial sectors and residential electrification patterns.

Renewable Energy and Non-Emitting Capacity Request for Proposal Update

After a robust and competitive bidding process as part of the 2021 RFP, including a price refresh and acknowledgment of the shortlist projects by the Oregon Public Utility Commission (OPUC), PGE commenced negotiations with final shortlist bidders late this past summer.

As a result of negotiations with the final shortlist bidders, PGE and NextEra Energy Resources, LLC, a subsidiary of NextEra Energy, Inc. have entered into agreements to construct a 311 MW wind energy facility, which will be part of the larger Clearwater Wind development in Eastern Montana. PGE will own 208 MW of the 311 MW being acquired in these agreements, with an investment of approximately \$415 million, excluding AFUDC*. Subsidiaries of NextEra Energy Resources, LLC will own the remaining 103 MW and will sell their portion of the output to PGE under a 30-year purchased power agreement (PPA). Subsidiaries of NextEra Energy Resources, LLC plan to design, build and operate the facility.

The agreements signed by PGE and subsidiaries of NextEra Energy Resources, LLC will be subject to prudence review on customers' behalf by the OPUC. The agreements are also subject to approval by senior management of NextEra Energy, Inc. The project has an estimated commercial operation date of December 31, 2023.

PGE continues to negotiate with remaining bidders on the final shortlist, with expectations to finalize negotiations by the end of 2022 or in the first quarter of 2023. If procurement is expected to extend past the end of 2022, PGE intends to file a status report to the OPUC by December 1, 2022.

*Allowance for funds used during construction

Major Deferral Amortization Update

On October 24, 2022, PGE and parties submitted a stipulation to the OPUC reflecting an agreement that resolved all matters related to 2021 under the 2020 Labor Day Wildfire and 2021 February Ice Storm deferrals and would allow PGE full recovery of the deferred amounts related to 2021 of \$30 million and \$72 million, respectively, with amortization over seven years. Additionally, PGE and parties submitted a stipulation with the OPUC reflecting an agreement that resolved all matters related to the 2021 Power Cost Adjustment Mechanism deferral and would allow PGE recovery of deferred

costs of \$28 million, with amortization over two years beginning January 1, 2023.

All stipulations are subject to OPUC approval.

PGE plans to file an amortization request for the COVID-19 deferral, which has a \$34 million balance as of September 30, 2022, in late 2022 or early 2023.

Quarterly Dividend

As previously announced, on October 21, 2022, the board of directors of Portland General Electric Company approved a quarterly common stock dividend of \$0.4525 per share. The quarterly dividend is payable on or before January 17, 2023, to shareholders of record at the close of business on December 27, 2022.

2022 Earnings Guidance

PGE is reaffirming its estimate for full-year 2022 GAAP earnings guidance of \$2.60 to \$2.75 per diluted share and its non-GAAP basis adjusted full-year 2022 earnings guidance of \$2.74 to \$2.89 which reflects the exclusion of previously disclosed \$17 million deferral reductions related to the year ended 2020. These are based on the following assumptions:

- An increase in energy deliveries between 2% and 2.5%, weather adjusted;
- Normal temperatures in its utility service territory for the remainder of the year;
- Hydro conditions for the remainder of the year that reflect current estimates;
- Wind generation based on five years of historical levels or forecast studies when historical data is not available;
- Normal thermal plant operations for the remainder of the year;
- Operating and maintenance expense revised from \$620 to \$640 million, which included the \$17 million impact of released deferrals related to 2020, to between \$640 million to \$660 million, which also includes \$10 million related to storm deferrals offset within Revenue, and an \$11 million increase due to the post-retirement medical settlement originally forecast within O&M guidance but reclassified to Other Income;
- Depreciation and amortization expense between \$410 million and \$430 million;
- Effective tax rate of 15% to 20%;
- Cash from operations of \$550 million to \$600 million;
- Capital expenditures of \$750 million; and
- Average construction work in progress balance of \$370 million.

Third Quarter 2022 Earnings Call and Webcast —October 25, 2022

PGE will host a conference call with financial analysts and investors on Tuesday, October 25, 2022, at 11 a.m. ET. The conference call will be webcast live on the PGE website at investors.portlandgeneral.com. A webcast replay will also be available on PGE's investor website "Events & Presentations" page beginning at 2 p.m. ET on October 25, 2022.

Maria Pope, President and CEO; Jim Ajello, Senior Vice President of Finance, CFO, Treasurer and CCO; and Jardon Jaramillo, Senior Director, Finance, Investor Relations, and Risk Management, will participate in the call. Management will respond to questions following formal comments.

The attached unaudited condensed consolidated statements of income and comprehensive income, balance sheets and statements of cash flows, as well as the supplemental operating statistics, are an integral part of this earnings release.

Non-GAAP Financial Measures

This press release contains certain non-GAAP measures, such as adjusted earnings, adjusted EPS and adjusted earnings guidance. These non-GAAP financial measures exclude significant items that are generally not related to our ongoing business activities, are infrequent in nature, or both. PGE believes that excluding the effects of these items provides a meaningful representation of the Company's comparative earnings per share and enables investors to evaluate the Company's ongoing operating financial performance. Management utilizes non-GAAP measures to assess the Company's current and forecasted performance, and for communications with shareholders, analysts and investors. Non-GAAP financial measures are supplementary information that should be considered in addition to, but not as a substitute for, the information prepared in accordance with GAAP.

Items in the periods presented, which PGE believes impact the comparability of comparative earnings and do not represent ongoing operating financial performance, include the following:

- Non-cash Wildfire and COVID deferral reversal charge associated with the year ended 2020, resulting from the OPUC's 2022 GRC Final Order earnings test.

PGE's reconciliation of non-GAAP earnings guidance is below.

Non-GAAP Earnings Guidance Reconciliation for full-year 2022

	Diluted EPS (2)
GAAP full-year 2022 earnings per diluted share guidance	\$ 2.68
Exclusion of released deferrals related to 2020	0.19
Tax effect (1)	(0.05)
Non-GAAP full-year 2022 earnings per diluted share guidance	\$ 2.82

(1) Tax effects were determined based on the Company's full-year blended federal and state statutory tax rate

(2) 2022 full-year GAAP and non-GAAP guidance presented based on the mid-point of the provided range

About Portland General Electric Company

Portland General Electric (NYSE: POR) is a fully integrated energy company based in Portland, Oregon. The company serves approximately 900,000 customers with a service area population of 2 million Oregonians in 51 cities. PGE owns 16 generation plants across Oregon and other Northwestern states and maintains and operates 14 public parks and recreation areas. For more than 130 years, PGE has powered the advancement of society, delivering safe, affordable, and reliable energy to Oregonians. PGE and its approximately 3,000 employees are working with customers to build a clean energy future. Together with its customers, PGE has the No. 1 voluntary renewable energy program in the U.S. PGE is committed to achieving at least an 80% reduction in greenhouse gas emissions from power served to customers by 2030 and 100% reduction by 2040. In 2021, PGE became the first U.S. utility to join The Climate Pledge. For the eighth year in a row PGE achieved a perfect score on the 2021 Human Rights Campaign Foundation's Corporate Equality Index, a national benchmarking survey and report on corporate policies and practices related to LGBTQ workplace equality. In 2021, PGE, employees, retirees, and the PGE Foundation donated \$4.8 million and volunteered 15,760 hours with more than 300 nonprofits across Oregon. Safe Harbor Statement

Statements in this press release that relate to future plans, objectives, expectations, performance, events and the like may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements represent our estimates and assumptions as of the date of this report. The Company assumes no obligation to update or revise any forward-looking statement as a result of new information, future events or other factors.

Forward-looking statements include statements regarding the Company's full-year earnings guidance (including expectations regarding annual retail deliveries, average hydro conditions, wind generation, normal thermal plant operations, operating and maintenance expense and depreciation and amortization expense) as well as other statements containing words such as "anticipates," "based on," "believes," "conditioned upon," "considers," "estimates," "expects," "forecast," "goals," "intends," "needs," "plans," "predicts," "promises," "seeks," "should," "subject to," "targets," or similar expressions.

Investors are cautioned that any such forward-looking statements are subject to risks and uncertainties, including, without limitation: the timing or outcome of various legal and regulatory actions; demand for electricity; the sale of excess energy during periods of low demand or low wholesale market prices; operational risks relating to the Company's generation and battery storage facilities, including hydro conditions, wind conditions, disruption of transmission and distribution, disruption of fuel supply, and unscheduled plant outages, which may result in unanticipated operating, maintenance and repair costs, as well as replacement power costs; delays in the supply chain and increased supply costs (including application of tariffs impacting solar module imports), failure to complete capital projects on schedule or within budget, failure of counterparties to perform under agreement, or the abandonment of capital projects, which could result in the Company's inability to recover project costs, or impact our competitive position, market share, revenues and project margins in materials ways; default or nonperformance of counterparties from whom PGE purchases capacity or energy, which require the purchase of replacement power and renewable attributes at increased costs; complications arising from PGE's jointly-owned plant, including ownership changes, regulatory outcomes or operational failures; the costs of compliance with environmental laws and regulations, including those that govern emissions from thermal power plants; changes in weather, hydroelectric and energy market conditions, which could affect the availability and cost of purchased power and fuel; the development of alternative technologies; changes in capital and credit market conditions, including volatility of equity markets, reductions in demand for investment-grade commercial paper or interest rates, which could affect the access to and availability or cost of capital and result in delay or cancellation of capital projects or execution of the Company's strategic plan as currently envisioned; general economic and financial market conditions, including inflation; the effects of climate change, whether global or local in nature, including unseasonable or extreme weather conditions, wildfires, and other natural phenomena and natural disasters that could result in operational disruptions, unanticipated restoration costs, third party liability or that may affect energy costs or consumption; the effectiveness of PGE's risk management policies and procedures; cyber security breaches of the Company's customer information system or operating systems, data security breaches, or acts of terrorism, which could disrupt operations, require significant expenditures, or result in claims against the Company; employee workforce factors, including potential strikes, work stoppages, transitions in senior management, and the ability to recruit and retain key employees and other talent and turnover due to macroeconomic trends; PGE business activities are concentrated in one region and future performance may be affected by events and factors unique to Oregon; widespread health emergencies or outbreaks of infectious diseases such as COVID-19, which may affect our financial position, results of operations and cash flows; failure to achieve the Company's greenhouse gas emission goals or being perceived to have either failed to act responsibly with respect to the environment or effectively responded to legislative requirements concerning greenhouse gas emission reductions; and risks and uncertainties related to 2021 All-Source RFP final shortlist projects. As a result, actual results may differ materially from those projected in the forward-looking statements.

Risks and uncertainties to which the Company are subject are further discussed in the reports that the Company has filed with the United States Securities and Exchange Commission (SEC). These reports are available through the EDGAR system free-of-charge on the SEC's website, www.sec.gov and on the Company's website, investors.portlandgeneral.com. Investors should not rely unduly on any forward-looking statements.
