

## Portland General Electric issues All-Source Request for Proposal for renewable and non-emitting energy projects to meet growing customer demand

February 5, 2024

*RFP process seeks bids for new energy resources to provide resource adequacy during the clean energy transition*

PORTLAND, Ore., Feb. 5, 2024 /PRNewswire/ -- On Friday, February 2, Portland General Electric (PGE) issued to market its 2023 All-Source Request for Proposal (RFP), seeking bids for resources that can provide non-emitting dispatchable capacity and renewable generation projects. This RFP is PGE's largest open application process to date and is the first in the company's recent history to provide a flexible timeline for the start of operations. The scope and scale of this procurement process demonstrates PGE's commitment to reliability for customers during the clean energy transition.

"This RFP is an important step to ensuring resource adequacy for PGE customers and communities as we decarbonize Oregon's power supply," said Brett Sims, PGE Vice President of Energy Supply and Resource Strategy. "Our aim is to attract broad participation from energy developers with projects that offer reliability, flexibility and maximum customer value."

This RFP, which accepts proposals for resources with a start date between 2025 and the end of 2027, is consistent with the objectives described in PGE's 2023 Integrated Resource Plan, which was acknowledged by the Oregon Public Utility Commission (OPUC) on January 25, 2024. PGE will accept and evaluate bids throughout the first quarter of 2024 and present a shortlist of top-performing projects for OPUC acknowledgement later in the year.

As the company reduces emissions, PGE is pursuing a number of procurement actions in addition to this All-Source RFP, including community-based renewable energy projects and an information discovery process to guide future procurements to meet ongoing customer needs.

More information about the RFP process, deadlines, and schedule, along with filed documents, can be found at [portlandgeneral.com/rfp](https://portlandgeneral.com/rfp).

### About Portland General Electric Company:

*Portland General Electric (NYSE: POR) is a fully integrated energy company that generates, transmits and distributes electricity to over 900,000 customers in 51 cities across the state of Oregon. For more than 130 years, Portland General Electric (PGE) has powered the advancement of society, delivering safe, affordable, reliable and increasingly clean energy. To deliver on its strategy and meet state targets, PGE and its approximately 3,000 employees are committed to partnering with stakeholders to achieve at least an 80% reduction in greenhouse gas emissions from power served to customers by 2030 and 100% reduction by 2040. PGE customers set the standard for prioritizing clean energy with the No. 1 voluntary renewable energy program in the country. Additionally, for the fifth year in a row, PGE was recognized by the Bloomberg Gender-Equality Index which highlights companies committed to creating a more equal and inclusive workplace.
