Portland General Electric announces third quarter 2019 results

- Maintaining full-year 2019 earnings guidance of \$2.35-\$2.50 per share, expecting to be in the lower half of the range
- Accelerating clean energy efforts with progress on Integrated Resource Plan and filing of Transportation Electrification plan Increasing capital expenditures with a focus on transmission and distribution upgrades

PORTLAND, Ore. - Portland General Electric Company (NYSE: POR) today reported net income of \$55 million, or 61 cents per diluted share, for the third quarter of 2019. This compares with net income of \$53 million, or 59 cents per diluted share, for the third quarter of 2018. PGE reaffirmed its 2019 earnings guidance range of \$2.35 to \$2.50 per diluted share and expects to be in the lower half of the range.

"Our financial performance this quarter was strong. In a summer with milder temperatures and unfavorable hydro conditions, we effectively managed our power supply and benefited from increased wind and thermal production," said Maria Pope, PGE president and CEO. "I am pleased to announce that we've broken ground on our Integrated Operations Center and are continuing to invest in our hydro facilities and distribution assets for a smarter and more resilient grid."

The increase in third quarter earnings was driven by favorable net variable power costs compared with the third quarter of 2018. Higher operating expenses were driven by wildfire mitigation, vegetation management and other miscellaneous items. A decrease in third quarter earnings was attributable to the absence of the Carty Generation Station cash settlement that occurred in 2018.

Company Updates

Integrated Resource Plan (IRP)

In July 2019, PGE filed with the Public Utility Commission of Oregon (OPUC) its 2019 IRP. As part of the OPUC's public review process, PGE is preparing to respond to comments provided by OPUC staff, consumer advocates, environmental groups and other stakeholders. PGE will request approval from the OPUC to issue one or more RFPs to acquire capacity and renewable resources following a final order expected in the first quarter of 2020. PGE is considering submission of a benchmark resource for both RFPs and will communicate its decision to submit a benchmark before doing so.

Transportation Electrification Plan

In September 2019, PGE filed its Transportation Electrification plan with the OPUC. The plan describes market conditions, PGE's current and planned activities, potential system impacts from transportation electrification, and relation to Oregon's carbon reduction goals. The plan is required and aimed at accelerating transportation electrification in Oregon.

Capital Updates

PGE increased its capital plan by \$145 million for the period 2019-2023. The company is planning to invest in projects to improve the resiliency and safety of transmission and distribution assets, as well as improving infrastructure resiliency and advancing an integrated grid.

2019 earnings guidance

PGE is reaffirming its 2019 guidance of \$2.35 to \$2.50 per diluted share and expects to be in the lower half of this range. This guidance is based on the following assumptions:

- · Flat weather-adjusted retail deliveries
- Normal hydro conditions for the remainder of the year based on the current hydro forecast
- · Wind generation based on five years of historical levels or forecast studies when historical data is not available
- Normal thermal plant operations
- Depreciation and amortization expense between \$400 million and \$420 million
- Operating and maintenance costs between \$600 million and \$620 million

Third Quarter 2019 earnings call and webcast — November 1, 2019

PGE will host a conference call with financial analysts and investors on Friday, November 1, 2019, at 11 a.m. ET. The conference call will be webcast live on the PGE website at investors.portlandgeneral.com. A replay of the call will be available beginning at 2 p.m. ET on Friday, November 1, 2019, through 1 p.m. ET on Friday, November 8, 2019.

Maria Pope, president and CEO; Jim Lobdell, senior vice president of Finance, CFO, and treasurer; and Chris Liddle, director, Investor Relations and Treasury, will participate in the call. Management will respond to questions following formal comments.

The attached unaudited condensed consolidated statements of income and comprehensive income, condensed consolidated balance sheets and condensed consolidated statements of cash flows, as well as the supplemental operating statistics, are an integral part of this earnings release.

###

About Portland General Electric Company

Portland General Electric (NYSE: POR) is a fully integrated energy company based in Portland, Oregon, serving 892,000 customers in 51 cities. For 130 years, PGE has been delivering safe, affordable and reliable energy to Oregonians. Together with its customers, PGE has the No. 1 voluntary renewable energy program in the U.S. With approximately 3,000 employees across the state, PGE is committed to helping its customers and the communities it serves build a clean energy future. Third quarter 2019

Cautionary statement

Information current as of November 1, 2019

Except as expressly noted, the information in this presentation is current as of November 1, 2019 — the date on which PGE filed its Quarterly Report on Form 10-Q for the quarter ended September 30, 2019 — and should not be relied upon as being current as of any subsequent date. PGE undertakes no duty to update this presentation, except as may be required by law.

Forward-looking statements

Statements in this presentation that relate to future plans, objectives, expectations, performance, events and the like may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities A of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements regarding earnings guidance; statements regarding future load, hydro conditions and operating and maintenance costs; statements concerning implementation of the company's integrated resource plan; statements concerning future compliance with regulations limiting emissions from generation facilities and the costs to achieve such compliance; as well as other statements containing words such as "anticipates," "believes," "intends," "estimates," "promises," "expects," "should," "conditioned upon," and similar expressions. Investors are cautioned that any such forward-looking statements are subject to risks and uncertainties, including reductions in demand for electricity; the sale of excess energy during periods of low demand or low wholesale market prices; operation risks relating to the company's generation facilities, including hydro conditions, wind conditions, disruption of fuel supply, and unscheduled plant outages, which may result in unanticipated operating, maintenance and repair costs, as well as replacement power costs; failure to complete capital projects on schedule or within budget, or the abandonment of capital projects, which could result in the company's inability to recover project costs; the costs of compliance with environmental laws and regulations, including those that gove emissions from thermal power plants; changes in weather, hydroelectric and energy markets conditions, which could affect the availability and cost of purchased power and fuel; changes in capital market conditions, which could affect the availability and cost of capital and result in delay or cancellation of capital projects; the outcome of various legal and regulatory proceedings; general economic and financial market conditions; severe weather conditions, wildfires, and other natural phenomena and natural disasters that could result in operational disruptions, unanticipated restoration costs, or liability for third party property damage; and cyber security breaches of the company's customer information system or operating systems, which may affect customer bills or other aspects of our operations As a result, actual results may differ materially from those projected in the forward-looking statements. All forward-looking statements included in this presentation are based on information available to the company on the date hereof and such statements speak only as the date hereof. The company expressly disclaims any current intention to update publicly any forward-looking statement after the distribution of this presentation, whether as a result of new information, future events, changes in assumptions or otherwise. Prospectiv investors should also review the risks, assumptions and uncertainties listed in the company s most recent annual report on form 10-K and in other documents that we file with the United States Securities and Exchange Commission, including management's discussion and analysis of financial condition and results of operations and the risks described therein from time to time.

Leadership presenting today

Maria Pope
President and CEO

On today's call

- · Financial performance
- Economic update
- Integrated Resource Plan
- · Capital planning update
- · Financial update

Jim Lobdell Senior VP of Finance, CFO & Treasurer

Third quarter 2019 financial results

	Q3 2019	Q3 2018
Net income (in \$ millions)	\$55	\$53
Diluted earnings per share (EPS)	\$0.61	\$0.59

(1) Estimates based on 2019 guidance range (2) Includes \$0.10 related to the Carty Generating Station cash settlement

Economic update

Continued growth expected

- Unemployment rate of 3.5% in our service area is below the national average of 4%⁽¹⁾
- Oregon median household income growth ranked the second fastest in nation⁽²⁾
- High tech manufacturing and data centers are driving growth

2019 Integrated Resource Plan

July 2019 IRP filed Q3-Q4 2019
Comments filed by Staff/
Stakeholders/PGE

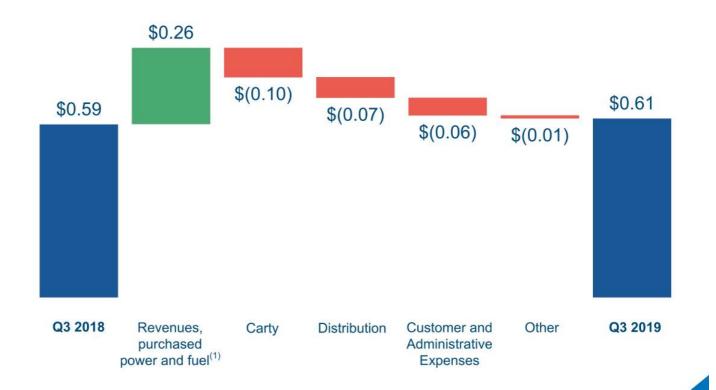

Q1 2020
Staff memorandum and final order expected

The plan reflects our focus on meeting customer needs and addressing stakeholder feedback

Action Plan

- Customer resource actions increased energy efficiency, demand response, storage and dispatchable standby generation
- Renewable resource actions a renewable RFP of 150 MWa, estimated online 2023
- Capacity resource actions a multi-stage procurement process for approximately 595 MW of cost-competitive capacity

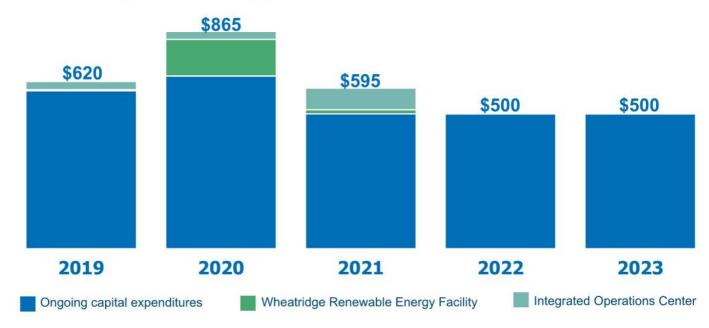

Third quarter 2019 earnings bridge

Note: Values shown represent diluted earnings per share (1) Revenues include retail revenues, wholesale revenues and other operating revenues

7

Capital planning

Investments include:

- · Updating, replacing aging generation, transmission and distribution equipment
- · Building a smarter, more resilient grid
- Investments to construct the Integrated Operations Center
- · Adding 100 MW of wind generation at Wheatridge Renewable Energy Facility
